

Seattle Children's
HOSPITAL • RESEARCH • FOUNDATION

Are you an autistic adult or parent/caregiver of an autistic adult?

If so, you may qualify for a research study!

We are testing a new intervention, called the RUBI Program for Autistic Adults

We are looking for:

- Autistic adults and their caregivers who currently live together and may experience behavioral challenges that impact daily routines, safety, self-care, and/or quality of life

Participation involves:

- Participating in intervention sessions
- Completing study measures at five timepoints over 20 weeks

You will receive up to \$215 each for your time participating.

Scan this QR code to set up an initial phone screen with a research coordinator

Please note that participating in research is optional and voluntary. Your decision to participate will not impact the services you or your family receives from your provider.

For more information, contact 206-884-8892 or rubia@seattlechildrens.org

We are accepting participants on a rolling basis until Fall 2025!
